ACRYLISH

ACRYLIC
LAMINATES COLLECTION

inspired by the *Infinite Sky*

*There may be colour variations between different production batches. It is advised to use same batch material to avoid colour differences. Actual laminate sheet colours may vary from shown in this catalogue.

Where Décor Finds Its
Limitless Expression

Taking inspiration from the endless sky, this concept represents what SKYDECOR ACRYLIC LAMINATES stand for: limitless choices, elevated beauty, and lasting relevance. The infinity flow reflects continuity in design, where style moves beyond trends and remains timeless. Its seamless curves mirror the smooth finish, rich depth, and uninterrupted elegance of acrylic surfaces. A collection created to bring expansive possibilities, premium appeal, and statement-making presence to every interior.

Rising Through The Years

2015

The PVC Laminates Plant launched in Greater Noida, UP, with a capacity of 3 lakh sheets yearly.

2018

Production capacity expanded to 1 million sheets per annum.

2020

Decorative Laminates Plant was launched in Hapur, UP, with a 3 million sheet yearly capacity.

2022

The Acrylic Laminates plant was launched in Greater Noida, UP, with a 6 lakh sheets yearly capacity.

2024

In 2024, we launched Soffitto Panel, a modern ceiling panel offering durability, elegance, and easy installation.

2025

Grand opening of our first export warehouse in Dubai.

2026

In 2026, we launched MATTEVA, an innovative flexible acrylate sheet. It is the first in the industry to offer a 1.25 mm thickness, redefining material versatility and precision.

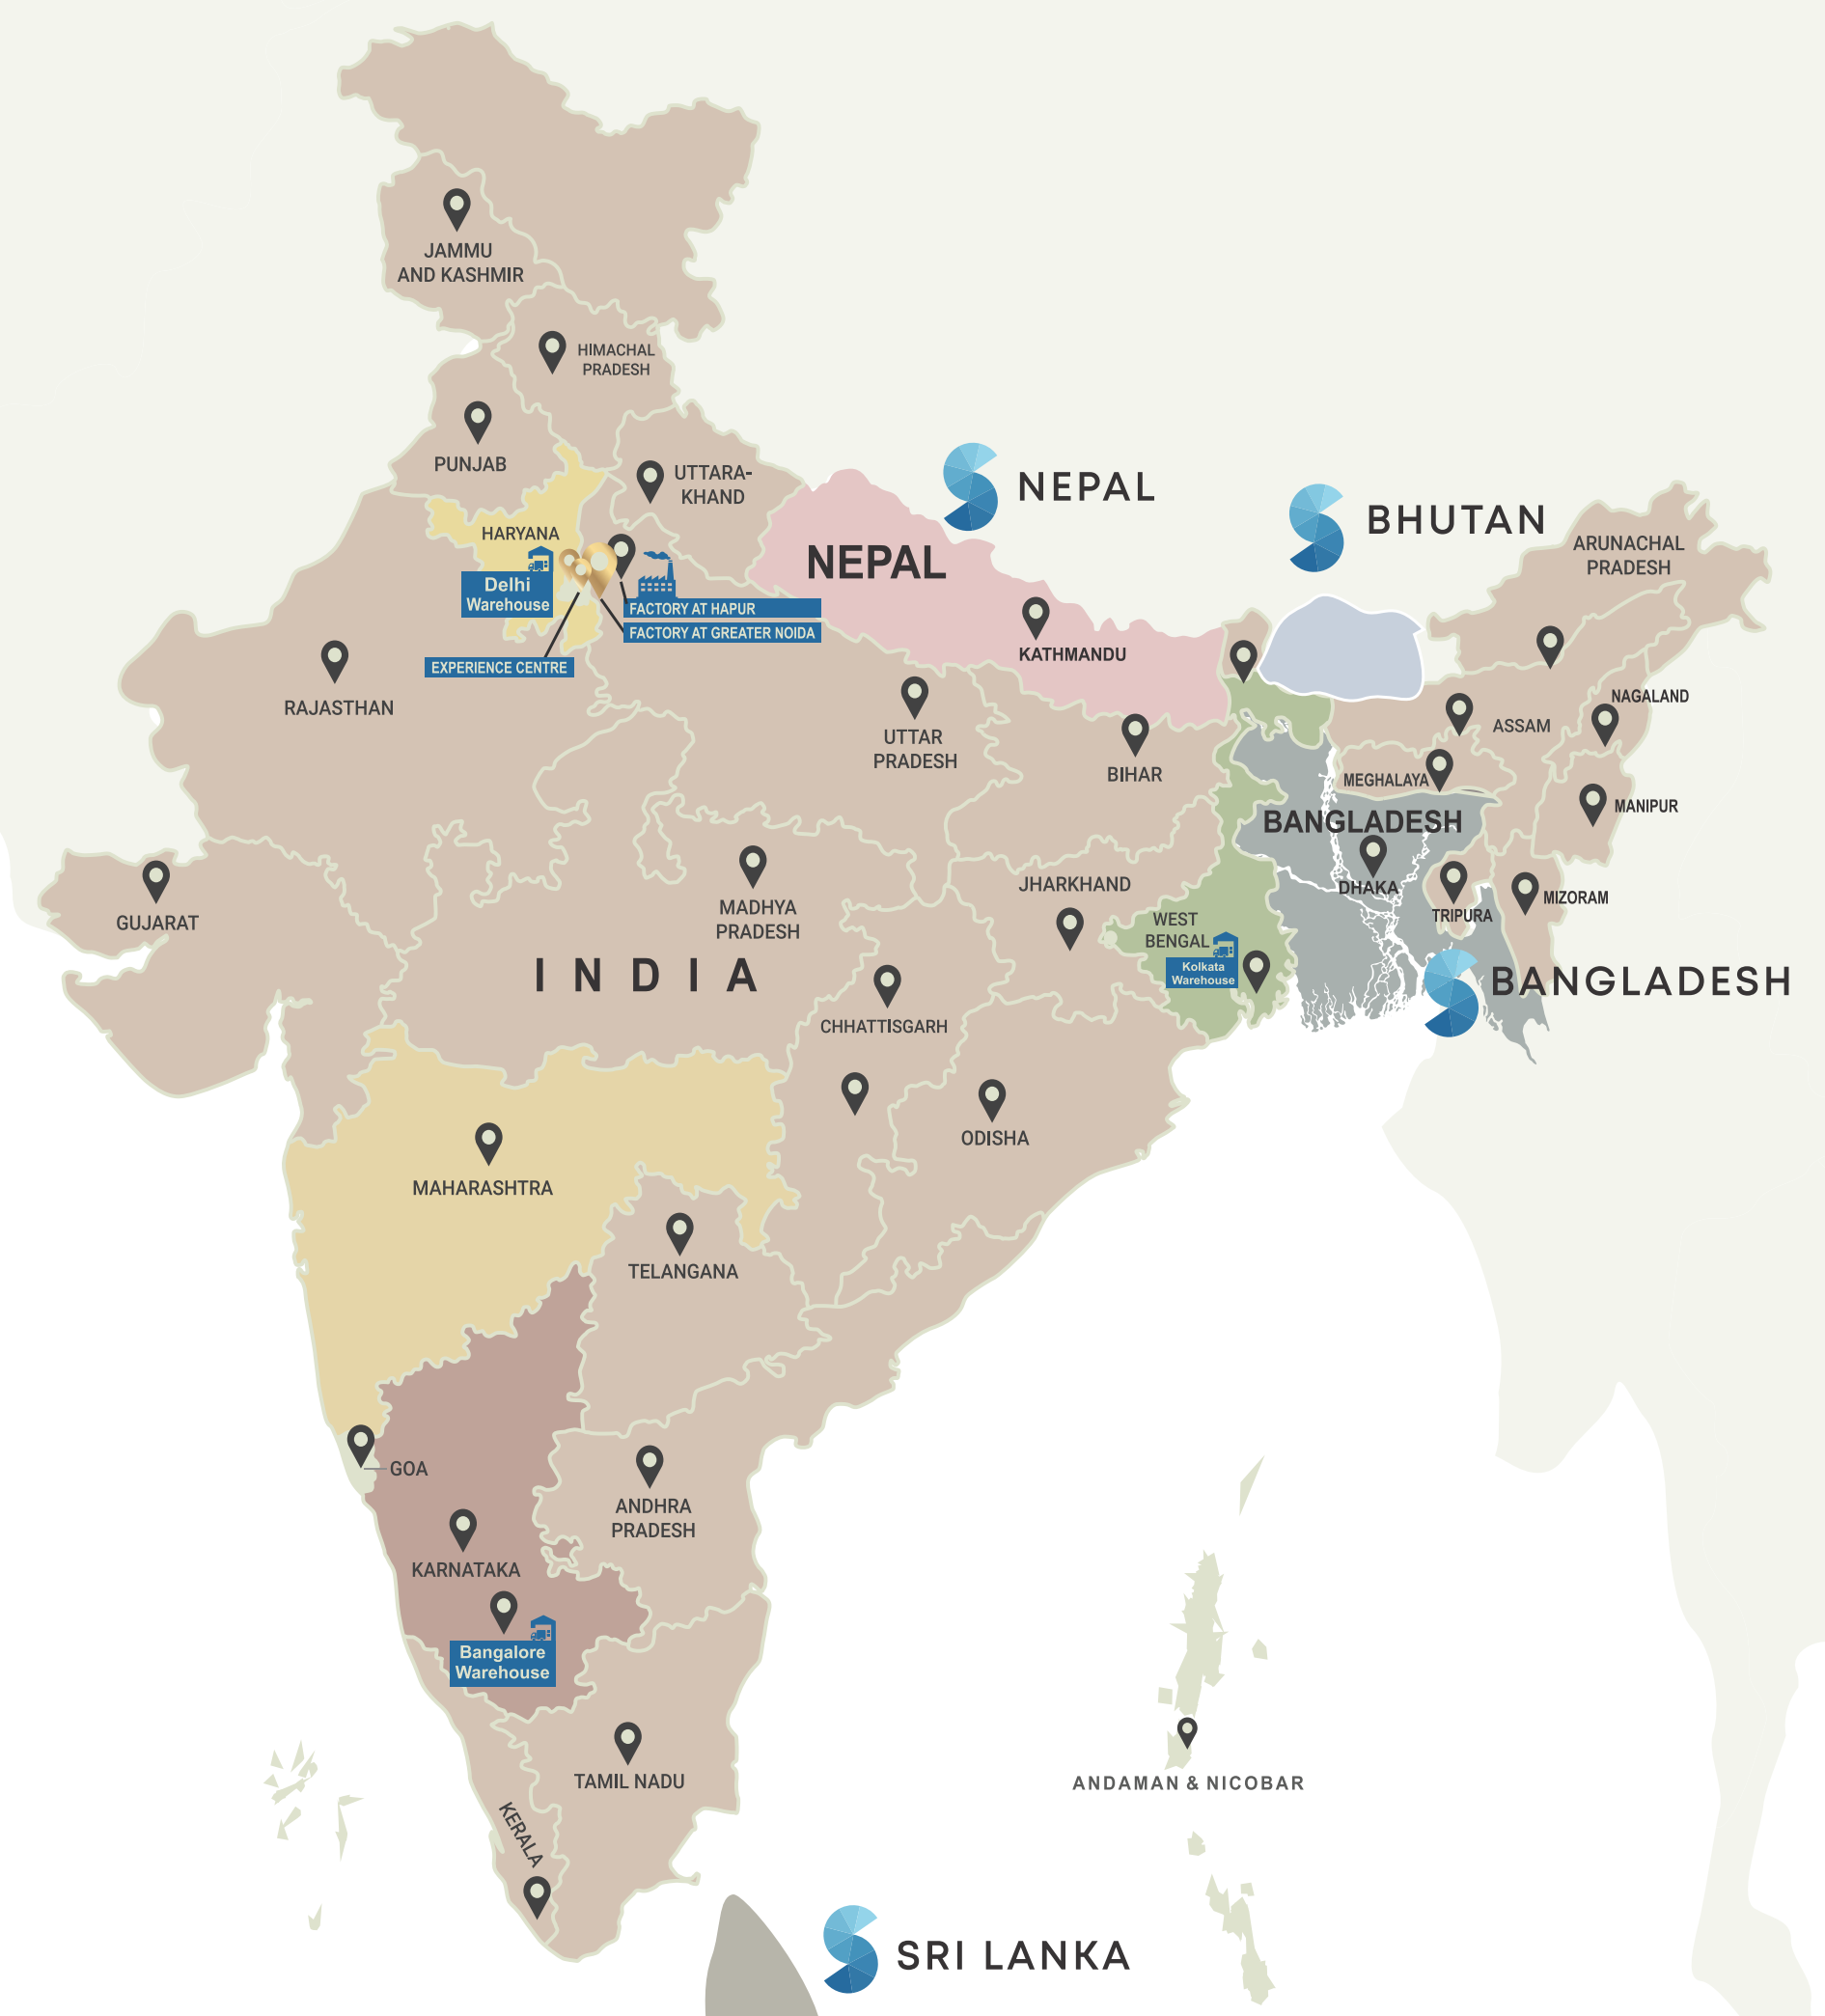

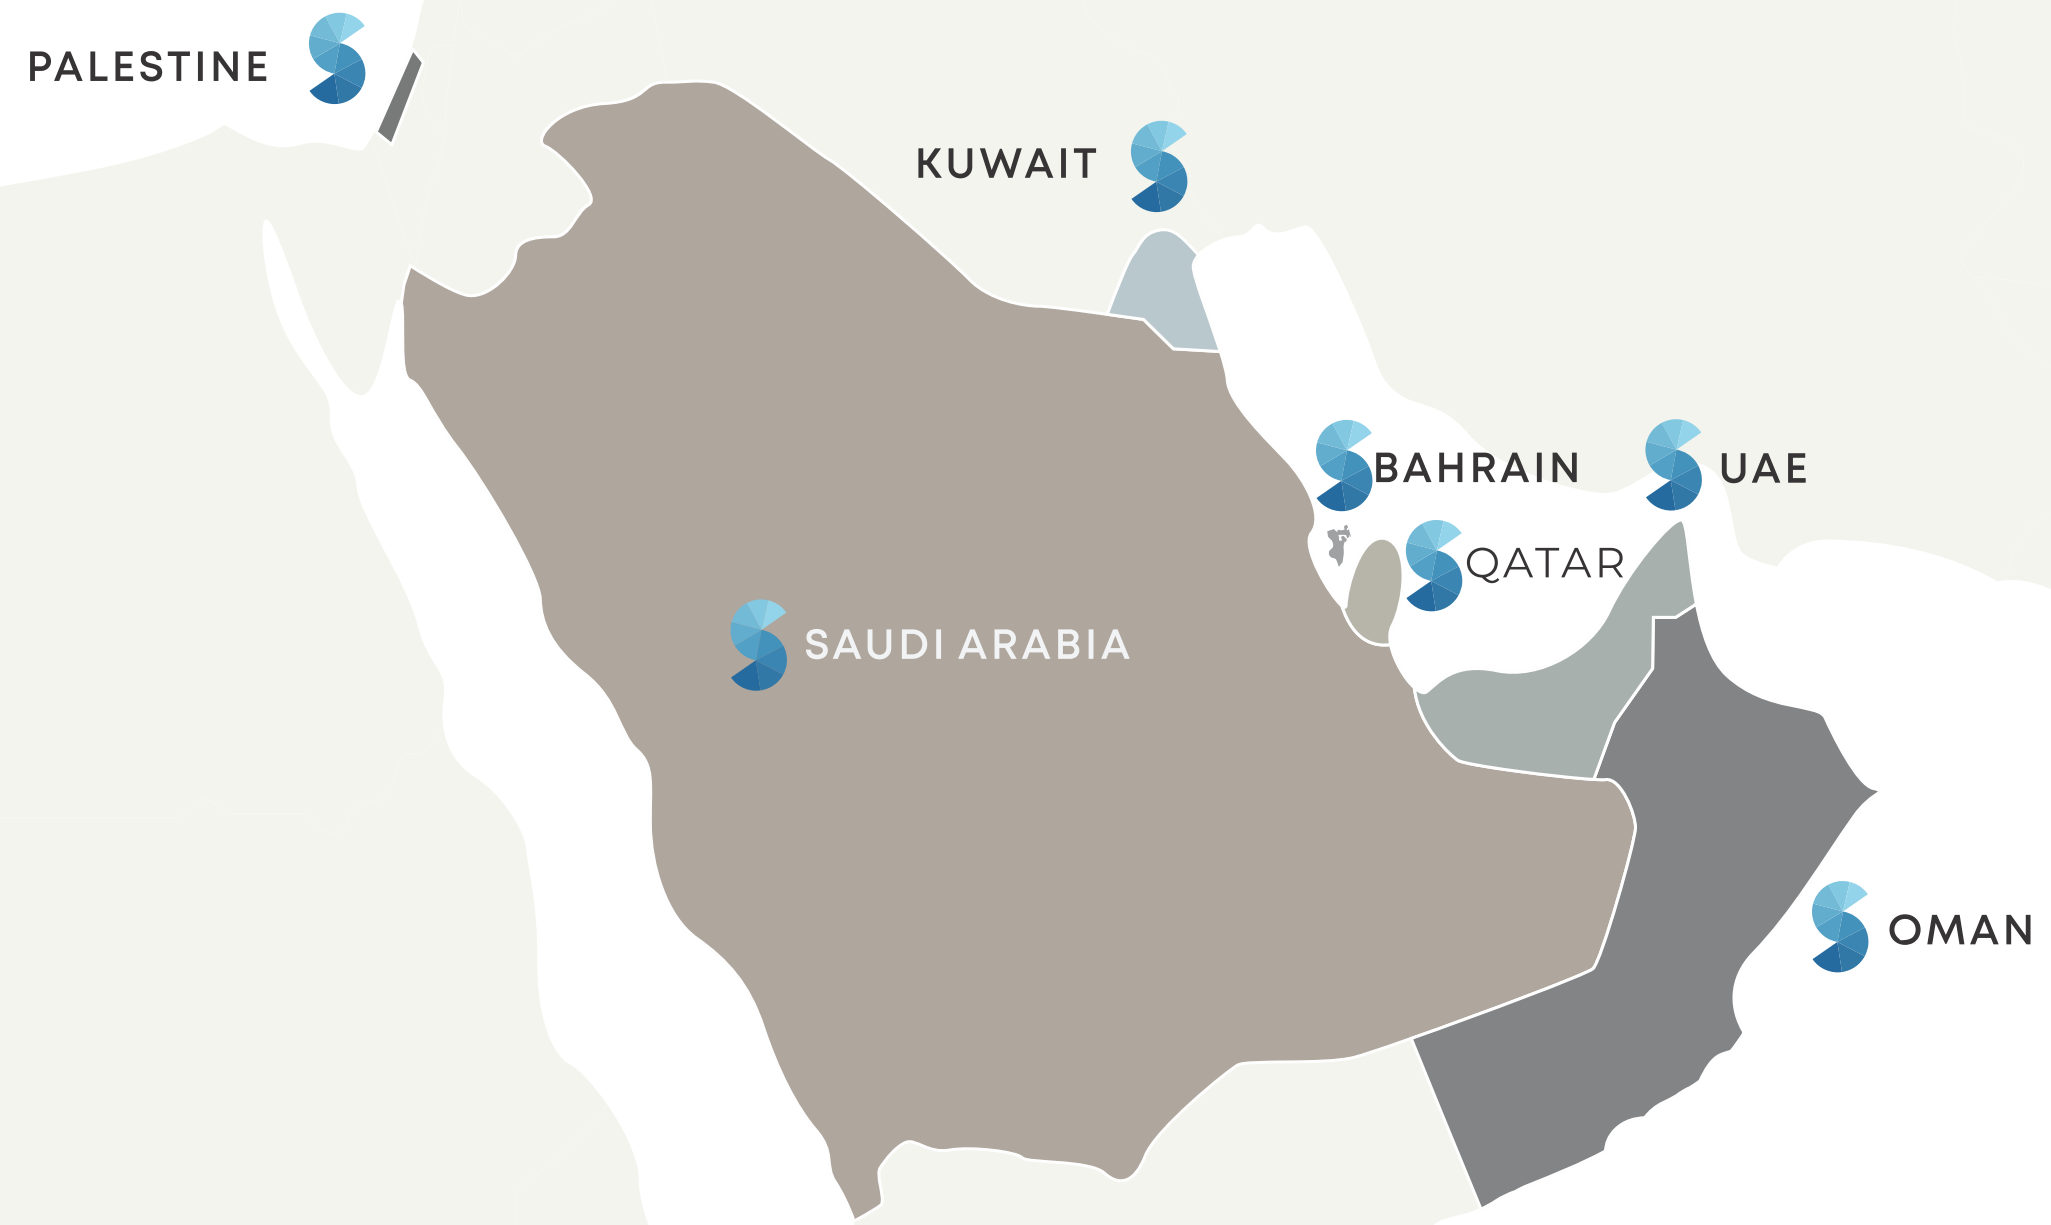

Established in 2015, SKYDECOR has been redefining decorative surfacing through innovation, advanced technology, and superior craftsmanship. With a vision to transform modern interiors, SKYDECOR has become a trusted name among architects, interior designers, channel partners, and homeowners who value quality, aesthetics, and reliability.

Backed by state-of-the-art manufacturing facilities in Greater Noida and Hapur, along with a strong PAN India presence, SKYDECOR delivers premium surfacing solutions for contemporary residential, commercial, and institutional spaces. Our focus on modern infrastructure, advanced production technology, and trend-driven designs enables us to create products that combine style, durability, safety, and long-term performance.

SKYDECOR offers a wide range of innovative decorative surfacing solutions, including 1mm+ Laminates, Acrylic Laminates, Soffitto Panels and FR Flexi Laminates, designed to meet evolving architectural and interior design needs. Every product is crafted with precision and attention to detail, ensuring exceptional finish, functionality, and long-lasting quality while adhering to modern design trends and safety standards.

Driven by a commitment to innovation, excellence, and customer satisfaction, SKYDECOR continues to strengthen its presence across India and global markets. With a progressive vision and passion for quality, we create surfaces that elevate spaces with sophistication, purpose, and timeless style wherever they are installed globally.

WAYS TO KEEP SKYDECOR ACRYLIC LAMINATE'S NEW FOREVER

Follow some steps mentioned as below to maintain Skydecor Acrylic Laminates.

- To clean the surface of Acrylic Laminates do not use thinner.
Wipe the surface gently with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminates.
- Use mild house hold glass cleaner like COLIN to remove more stubborn stains.
- You can use normal water also for cleaning.
- Do not place hot cookware directly on the Acrylic Laminate.
- Always store Acrylic Laminates at temperature below 30 degree.

HOW TO APPLY SKYDECOR ACRYLIC LAMINATES ON INTERIORS & FURNITURES

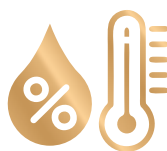

Use balancing sheet on backside.

- Always clean the dust particles properly from the substrate (plywood MDF, Particle Board) surface by cloth or soft brush.
- Always use good quality branded adhesive to stick Acrylic Laminate on substrate. Please don't add water in adhesive before using it.
- Spread the adhesive uniformly by brush, roller or adhesive spreader on Acrylic Laminate and base substrate (Plywood, MDF, Particle Board).
- It is necessary to remove air in between Acrylic Laminate and substrate. Please leave minimum 2mm of groove between two pieces of Acrylic Laminate.
- At the time of pressing Acrylic Laminate on base substrate (Plywood, MDF, Particle Board) always use soft pinch roller or normal pressing technique to protect surface from any damage.
- The pressing should be done from the middle of the panel and move towards to the sideline and corners of the panel.
- For better bonding of Acrylic Laminate on substrate, press it for minimum 12 to 15 hours.
- Peel off the protective film within 15 days of installation.

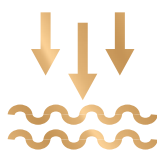

WAYS TO PREVENT SKYDECOR ACRYLIC LAMINATES FROM COLOR FADE OR YELLOWING

- Do not expose your Acrylic Laminated furniture to direct sunlight, it may cause discolouring, fading and yellowing of the laminates.
- Don't use inferior quality chemical dipped plywood as it can react with adhesive which may cause yellow patches after the installation.
- Don't use synthetic rubber adhesive for bonding as it may lead to brown/colored patches on Acrylic Laminates.
- Don't place hot cookware directly on the Acrylic Laminates.
- Prolong exposure of Acrylic Laminate above 30-degree temperature should be avoided.

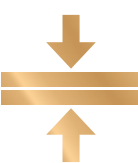

YOU CAN AVOID PROBLEMS LIKE AIR BUBBLE & DELAMINATION ACRYLIC LAMINATE.

Avoid the lamination process of Acrylic Laminate under high humidity environment.

Don't use uneven surface substrate (Plywood, MDF, Particle Board) that may lead to air vacuum and air bubble which may appear after the installation.

Insufficient or lack of pressing during the bonding period of Acrylic Laminate.

Prevent the base substrate (Plywood, MDF, Particle Board) to absorb moisture. Because after few days of installation, it gradually loses moisture and this resulting in air bubble formation between Acrylic Laminate and substrate.

Don't use the water base synthetic resin adhesive any other then PVA (Polyethylene Vinyl Acetate Co-polymer)

Take extra care during use of big size acrylic laminate for panel because due to the bigger surface area, improper lamination may lead to air bubble formation after installation.

While rolling the acrylic laminate sheet, always ensure that the decor film is kept on the outer side to prevent inside cracking of the sheet

There may be colour variations between different production batches. It is advised to use same batch material to avoid colour differences. Actual laminate sheet colours may vary from shown in the catalogue

DISCLAIMER

The Products are tested to be reasonably free of defects, and when used and fabricated properly they will comply with the applicable manufacturing specifications within realistic deviations. We recommend customers to inspect products properly before installing.

Productos warranty in no way covers defects and non-compliance from or otherwise attributable to any other causes, including, without limitation the following

- Improper handling/transportation / storage of Skydecor Acrylic Laminates
- Improper installation of Skydecor Acrylic Laminates
- Improper or unintended usage of Skydecor Acrylic Laminates
- Lack of or improper maintenance of Skydecor Acrylic Laminates
- Exposure to high temperatures
- Unauthorized alteration to the products
- Outdoor applications
- Do not use plywood with high moisture content
- Do not use ply with uneven surface

SKYSTICK™

ADHESIVE

Skydecor recommends

Perfect Bond for Acrylic & FR Flexi Laminates

Easy to Apply

Quick Dry

Strong Bond

Low Odour

SKYDECOR recommends SKYSTICK adhesive for pasting of Acrylic and FR Flexi Laminate sheets on substrate

Available in
1 Kg and 5 Kg Jar

Description :

With the new age and rapidly changing customer demands, we have curated an adhesive solution for the application of Acrylic & FR Flexi Laminates. With an idea to provide a superior solution we present SKYSTICK ADHESIVE. A ready to use, high coverage, quick to dry and solid bonding strength adhesive.

Usage Method for Sheets :

1. Cover the edges with masking tape.
2. Clean the surface of **Plywood, MDF or Particle Board** to ensure it is free from dust and grease.
3. Stir the glue well. Spread it uniformly on both the sheet and the substrate using a brush, roller or spreader.
4. Place the sheet and substrate together carefully. Full bond strength will be attained in **12 hours at room temperature**.
5. Press the sheet with a **wet squeeze cloth** to ensure a proper bond and to remove air bubbles.
6. Remove the masking tape from the edges.
7. SKYDECOR strongly recommends to use SKYSTICK Adhesive for best results.

IMPORTANT NOTES:

- Lack of sufficient pressure while pressing may cause air bubbles
- No guarantee is provided against air bubbles.*

उपयोग विधि :

1. किनारों को **मैकिंग टेप** से झाड़ दें।
2. **पायवुड, पार्टिकल बोर्ड या एमडीएफ** की सतह को अच्छी तरह साफ करें ताकि उस पर धूल या ग्रीस न रहे।
3. ग्लू को अच्छी तरह क्लियर। झाड़, रोलर या स्प्रेडर की मदद से ग्लू को शीट और सबस्ट्रेट दोनों पर समान रूप से लगाएं।
4. शीट और सबस्ट्रेट को सावधानीपूर्वक एक साथ रखें। **कमरे के तापमान पर 12 घंटे में पूरा बंध रहेगा।**
5. ग्लू बंधने से पहले की दमने, जल्दी जगह निकसे से प्रिक्चर चारु और झाड़ के झाड़ूकी निवारण करें।
6. किनारों से मैकिंग टेप हटा दें।
7. सर्वोत्तम परिणामों के लिए **स्कवाइजिंग क्लॉथ** का उपयोग करके ग्लू को अच्छी तरह झाड़ दें।

गारंटी व नोट्स:

- दबाव कम देने पर शीट में झाड़ के झाड़ूकी आ सकते हैं।
- झाड़ के झाड़ूकी होने पर कोई गारंटी नहीं दी जायेगी.*
